Part II Organizational Action Attach additional statements if needed. See back of form for additional questions.

14 Describe the organizational action and, if applicable, the date of the action or the date against which shareholders' ownership is measured for the action ▶ **The organizational action is a two-for-one stock split announced on May 5, 2011, payable on June 1, 2011 to stockholders of record at the close of business on May 16, 2011.**

15 Describe the quantitative effect of the organizational action on the basis of the security in the hands of a U.S. taxpayer as an adjustment per share or as a percentage of old basis ▶ **A U.S. taxpayer will receive one additional share of common stock for each original share owned by the taxpayer. The adjusted basis of each original share owned by the taxpayer will be allocated between the original share and the additional share proportionately. Accordingly, the adjusted basis in each original share will be reduced by 50% and the taxpayer will have a basis in each additional share equal to 50% of his basis in each original share. There will be no change in the taxpayer's aggregate basis in the total shares owned before and after the organizational action.**

16 Describe the calculation of the change in basis and the data that supports the calculation, such as the market values of securities and the valuation dates ▶ **The fair market value of each original share at the close of business on the split date was \$82.00. Immediately following the split, each original share had a fair market value of \$41.00, and each additional share had a fair market value of \$41.00. The fair market value of the aggregate outstanding shares was the same immediately before and immediately after the organizational action.**
